

TRAINCREASE

Workshop

Experimental designs for the study of abstract concepts in interaction—

Programme

MONDAY, May 23

12 pm Social brunch

1.30 pm **A. Borghi**: "Abstract concepts in interaction"

2.30 pm **K. Rohlfing**:
"Dialogical, individual, and social construction of the abstract words' meanings"

4 pm **A. Wykowska**: "What interactive protocols with humanoid robots tell us about human cognition"

5 pm **C. Fini, C. Mazzuca & A. Borghi**—Interactive session

TUESDAY, May 24

9.30 am **C. Mazzuca, C. Fini & A. Borghi**—Interactive session

11 am **M.T. Liuzza**: "Bayesian multilevel [generalized] linear models"

2.30 pm **C. Fini, C. Mazzuca & A. Borghi**—Interactive session

4 pm **G. Lupyan**:
"Variability in people's word meanings"

5 pm **C. Mazzuca, C. Fini & A. Borghi**—Interactive session

6 pm Advisory board meeting

SOCIAL DINNER

WEDNESDAY, May 25

9 am **microt winnings**

10 am **M.T. Liuzza**: "Measurement matters. An introduction to a Bayesian Item Response Theory approach to the study of abstract concepts."

1.30 pm presentation of interactive experiments & conclusions
